

Craig Gouker Roofing

Professionalism, Quality and Pride

A lot of contractors do roofing – in addition to building decks, dry walling rooms or whatever other job needs to be done. With Craig Gouker Roofing, roofs are all he and his crew have been doing for over 20 years, so you're not only getting roofing expertise, you're getting a well-oiled crew that can do your roof right the first time without destroying your yard in the process.

That's because Gouker specializes in only roofs. And when you specialize in something, you can invest in the equipment and manpower to do that job in ways that no one else can. So Gouker not only has a fleet of trucks carrying materials for any situation that can be dispatched anywhere the job is, he also has specialty equipment, like the "buggy," which is like a portable dumpster on wheels. The buggy eliminates the need for driving heavy equipment over your lawn, creating ruts and landscape issues. It also eliminates the need for a long dumpster planted in your yard for as long as the project lasts, which also can kill lawns and ruin landscaping.

"It's a showstopper," Gouker said. "It saves mess, it's easy on lawns and landscaping and it can be positioned anywhere we need it to catch debris. We actually have two of them and we use them all the time."

Craig Gouker Roofing also has a dedicated conveyor truck that moves shingles from the truck to your roof without touching your yard.

"We believe strongly in being the best at your craft. This is all we do, all day every day," Gouker said. "When you dedicate yourself to that, you can give back more to the customer in quality and conscientiousness regarding their home and yard that the other guys can't compete with."

Gouker only deals with Owens Corning, and is an Owens Corning Preferred Installer (#202690). He carries their Duration line of shingles exclusively, which provides a lifetime warranty for as long as you own your home, and can resist winds of up to 130 mph. The Duration shingles' warranty also guarantees algae resistance for 10 years. The line comes in a variety of colors that can match any home style or feel.

Gouker offers free estimates, financing through First Commonwealth, and is fully insured with proper insurance classification, something that not all roof installers may have.

"It's very confusing, so you have to make sure your roofer has the proper classification on their insurance," Gouker said.

"Otherwise, if there's a catastrophic injury, their claim may be denied and they can come after the homeowner. That won't happen with us."

In fact, Gouker's safety record is excellent, with most of his employees having been safely with him for over 15 years. He's got an excellent profile on Angie's List and his record with the Better Business Bureau is spotless.

"It's a difficult thing to be an honest, professional roofing contractor in 2014," Gouker said. "But we're up for the challenge. We've been ahead of the pack for over 20 years and our record and testimonials speak for themselves."
